ANDRIANO DIEGO
FULLSTACK DEVELOPER

Profile

I'm a curious person by nature and love learning and applying new stuff. I'm a problem solver; I won't disappear upon receiving a hard task. I'm a good team player and I strive to make everyone's life easier. Six years of professional experience.

Work Experience

06/2022 - present   **Web dev / Full-stack**
Allaria Ledesma

- Involved in the development of an API to be used for third parties, expecting to handle hundreds of thousands of users. Still in development.

- Involved in the development of an app that had to connect to third party APIs, and show the result both as an API and with a FE panel for devs and regular users, with an option to export data to a PDF, from endpoint or from FE.

- Involved in the development of an app to be used in another section of the company, involving mass mailing to registered companies. The app allows a drag & drop & send functionality with automatic company detection that reduced man-hours.

- All projects were made with a conscious attention to UX and UI.

- Some tasks as Team Lead, such as giving internal talks about Logging in the company, or helping junior colleagues when needed.

02/2022 - 06/2022 **Web dev / Full-stack**
Codetria

- Lead the development of an app to be used for client's in-company. Greenfield project to prod, deployed successfully and included creating the DER, architecture, and deployment. Still on call for the project.

06/2017 - 02/2022 **Android / Web dev / Full-Stack**
Savedata SRL / Filocode
